	DESCRIPTION	Ø	REF.	USE
	ANTI-STATIC FILTER KIT 850 full-style filter ring, TW452 SA star-shaped filter.	460	VP07444 VP07443 VP07343	Features some small steel wires, meant for ground discharge of static electricity.
	ANTI-STATIC FILTER KIT 1000 full-style filter ring, TW452 SA star-shaped filter.	560	VP07446 VP07445 VP07334	
	HEPA KIT 600AF/800AF/1000/1000AF		VP07407	An absolute filter is recommended when extracting dangerous/toxic substances. A HEPA filter is included therein.
	HEPA KIT 200/200S/200T/200		VP07255	
	HEPA FILTER CARTRIDGE 36.200 CM2		VP07035	Filter is necessary when extracting dangerous/toxic substances.
	HEPA KIT 400/400P/600/600P/800		VP07408	An absolute filter is recommended when extracting dangerous/toxic substances. A HEPA filter is included therein.
	HEPA FILTER CARTRIDGE 20.600 CM2		VP07394	Filter is necessary when extracting dangerous/toxic substances.
	CONE SHAPED ALUMINIUM CONVEYOR (OPTIONAL)	460	VP06840	Device to be installed within the upper tank in order to better cut- off fine dust quantities.
	STEEL GRID AND DEPRESSOR	460	VP07252	Device to be installed at the bottom of the lower tank. The depressor tube will be connected to tank fittings. This enables placing a nylon bag to collect residuals in the lower tank.
	STEEL GRID WITH TAP	460	VP07251	Device to be installed at the bottom of the lower tank by an appropriate tap. Used to segregate liquid and solid waste components.
