Herewith attached please find the new breakdown drawing and parts list.

Please note that the new plugs and the new check valves are **NOT** interchangeable with the old version's.

The new pump version is easily recognizable due to the new style plugs with **ROUND internal circumference** (instead of the old plug with the sunken hexagon) and the colour of the new **check valve cages** which is now **NEUTRAL**, instead of black.

Thanking you for your attention, we would like to remind you that our Sales Dept is at your disposal for any further information you may require.

Kind regards

**LEUCO S.p.A.**
